

THE ART OF
ILLUMINATION

ORION SERIES INSTALLATION INSTRUCTIONS

Please read all instructions prior to installation & keep for future reference.

1. Omnilight products should be installed by a qualified electrician.
2. Check to ensure power is off at fuse box to prevent electrical shock.
3. Make sure the wattage of the power supply and the product are compatible.
4. Omnilight products can be mounted on most surfaces.
5. Make sure the surface is clean and dry before mounting.

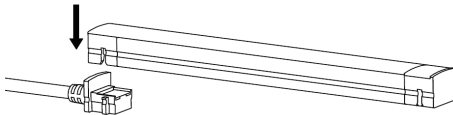

All Omnilight products are cUL and/or cETL listed

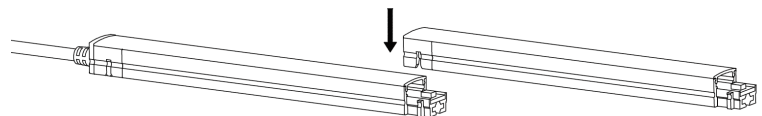

Make all connections and test system before installing to surface

Installing fixture: The Orion series light bars can be installed using the clips, double-stick tape (provided) or magnets (integrated in fixture)

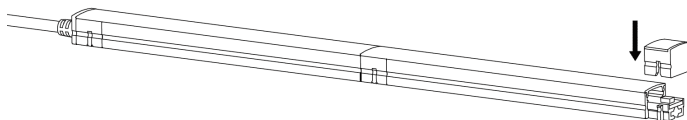

Connect OTP-24 to Orion light bar

If connecting light bars together, remove end cap and install as shown

Make sure end cap is on at the end of the run length

Connect OPT-24 to lead coming from Omnilight power supply

- Wire with writing is Positive (+), wire with black lines (—) is negative (-)

Verify polarity is correct and fixtures illuminate

Install Orion light bars to surface using clips, double-stick tape or magnets

All Omnilight products are tested and warranted for use exclusively with Omnilight power supplies
